Exhibit 99.1

ESQUIRE FINANCIAL HOLDINGS, INC. REPORTS SECOND QUARTER 2018 RESULTS *Growth in Loans and Core Deposits, Fee Income and Record Net Income*

Jericho, NY – July 25, 2018 – Esquire Financial Holdings, Inc. (NASDAQ: ESQ) (the "Company"), the holding company for Esquire Bank, National Association ("Esquire Bank"), today announced its operating results for the three and six months ended June 30, 2018. Significant achievements during the quarter include:

- Net income increased 116% to \$2.2 million, or \$0.29 per diluted common share, compared to \$1.0 million, or \$0.20 per diluted common share, for the comparable period in 2017.
- Returns on average assets and common equity were 1.51% and 10.47%, respectively compared to 0.95% and 7.64% for the second quarter of 2017.
- Supported by a strong net interest margin of 4.63%, net interest income for the second quarter increased \$2.0 million or 44%, to \$6.6 million compared to 2017.
- Total assets increased \$131.4 million or 29% to \$587.2 million when compared to June 30, 2017.
- Loans increased \$42.7 million or 25% annualized to \$391.7 million from \$349.0 million at December 31, 2017, primarily driven by our commercial and commercial real estate loan categories.
- Continued solid asset quality metrics and reserve coverage with no non-performing assets and an allowance for loan losses to total loans of 1.22% at June 30, 2018.
- Non-interest income increased 46% to \$2.0 million compared to 2017 and represented 23% of total revenue.
- Deposits totaled \$497.1 million, a \$120.8 million or 32% increase from the second quarter of 2017 with a cost of funds of 0.17% (including demand deposits). Off-balance sheet funds totaled \$251.2 million at June 30, 2018.
- Esquire Bank remains well above the bank regulatory "Well Capitalized" standards.

"Since our IPO in June of 2017, the Company continues to deliver on its high performance goals," stated Dennis Shields, Executive Chairman. "These goals include a strong net interest margin coupled with industry leading growth, a diverse mix of revenue and a national distribution network anchored by technology."

"Our loan and merchant fee income platforms continue to drive revenue growth on a linked quarter basis," stated Andrew C. Sagliocca, President and Chief Executive Officer. "Coupled with our branchless distribution network, our revenue growth should continue to drive down our efficiency ratio below industry averages and increase our returns."

Net Earnings and Returns

Net income for the quarter ended June 30, 2018 was \$2.2 million or \$0.29 per diluted common share, compared to \$1.0 million or \$0.20 per diluted common share for 2017. Returns on average assets and common equity for the current quarter were 1.51% and 10.47% compared to 0.95% and 7.64% in 2017, respectively. Net income for the six months ended June 30, 2018 was \$4.2 million or \$0.54 per diluted common share, compared to \$1.8 million or \$0.36 per diluted common share for 2017. Returns on average assets and common equity for the six months ended June 30, 2018 were 1.50% and 10.00% compared to 0.87% and 7.02% in 2017, respectively.

Net interest income for the second quarter of 2018 increased \$2.0 million, or 43.7%, to \$6.6 million, primarily due to growth in average interest earning assets totaling \$147.5 million, or 34.5%, to \$574.9 million when compared to 2017. Our net interest margin increased to 4.63% for the second quarter of 2018 compared to 4.34% in 2017. Average loans in the quarter increased \$80.4 million or 27.7%, to \$371.0 million and average securities increased \$50.5 million, or 48.7%, to \$154.2 million when compared to the second quarter of 2017. For the six months ended June 30, 2018, net interest income increased \$3.8 million, or 42.9%, to \$12.7 million, primarily due to growth in average interest earning assets totaling \$132.6 million, or 31.6%, to \$552.1 million when compared to the six months ended 2017. The Company's net interest margin increased to 4.65% for the six months ended 2018 compared to 4.29% in 2017. Average loans for the six months ended 2018 increased \$78.7 million, or 27.7%, to \$363.1 million and average securities increased \$43.9 million, or 43.2%, to \$145.5 million when compared to the six months ended 2017. Increases in loans and securities for the quarter and six months ended June 30, 2018 represent organic growth funded with low cost core deposits.

The provision for loan losses was \$300 thousand for the second quarter of 2018, unchanged from the comparable period in 2017 and \$75 thousand higher for the six months ended June 30, 2018. The higher provision for the six months ended June 30, 2018 is reflective of loan growth experienced in the Company's higher yielding commercial and consumer loan categories. As of June 30, 2018, Esquire had no delinquent loans and no non-performing assets. Additionally, the Company had no charge-offs for the six months ended June 30, 2018.

Non-interest income increased \$621 thousand, or 45.7%, to \$2.0 million for the second quarter of 2018, and increased \$1.5 million, or 58.2%, to \$4.1 million for the six months ended 2018, primarily due to the increases in merchant processing income and customer related fees and service charges. The increases in merchant processing income were a result of growth in our monthly processing volumes attributable to growth in the number of Independent Sales Organizations ("ISOs") as well as growth in the number of merchants we service. The growth in customer related fees and service charges primarily consisted of off-balance sheet administrative service payments, which was positively impacted by higher volumes and increases in short-term rates.

Non-interest expense increased \$1.1 million to \$5.3 million in the second quarter of 2018 and increased \$2.4 million to \$10.6 million for the six months ended June 30, 2018. These increases were primarily driven by increases in employee compensation and benefits costs, professional and consulting services and other operating expenses. The increase in compensation and benefits costs was due to the Company's hiring efforts, including several senior managers, to support our future growth and technology efforts as well as salary and incentive increases. The increase in professional and consulting services as well as other expenses was due primarily to additional costs related to being a public company and costs related to certain strategic projects. The Company's efficiency ratio decreased to 61.4% and 62.9% for the three and six months ended June 30, 2018.

The effective tax rate on a year to date basis and for the second quarter of 2018 was 26.8%.

Balance Sheet

At June 30, 2018, total assets were \$587.2 million, reflecting a \$131.4 million, or 28.8% increase from June 30, 2017. This increase is primarily attributable to increases in loans totaling \$84.3 million, or 27.4%, to \$391.7 million and increases in securities totaling \$50.5 million, or 51.9%, to \$147.8 million at June 30, 2018. This growth was primarily funded with low cost core deposits. The allowance for loan losses was \$4.8 million, or 1.22% of total loans, as compared to \$3.8 million, or 1.24% of total loans, at June 30, 2017.

Total deposits were \$497.1 million at June 30, 2018, a \$120.8 million, or 32.1% increase from June 30, 2017. This was primarily due to a \$92.9 million, or 42.8% increase in Savings, NOW and Money Market deposits to \$310.0 million and a \$39.1 million, or 29.7% increase in non-interest bearing demand deposits to \$170.7 million. The Company continued to prudently manage its balance sheet through its mass tort deposit sweep programs, maintaining off-balance sheet funds totaling \$251.2 million at June 30, 2018. These funds are a current source of administrative service income.

Stockholders' equity increased \$9.5 million to \$86.5 million at June 30, 2018 compared to June 30, 2017, primarily due to net income and the sale of 354,580 additional shares of common stock at the public offering price of \$14.00 per share pursuant to the underwriter's overallotment option in connection with our initial public offering. Esquire Bank remains well above bank regulatory "Well Capitalized" standards.

With excess capital as a foundation, the Company anticipates continued earnings growth in 2018 driven by its robust lending pipelines, as well as its merchant services and other fee income opportunities.
